

YCADA DANCE CATEGORIES

JAZZ TECHNIQUE: This style includes kicks, leaps/leap combinations, pirouettes, turning sequences, body placement, control, etc. When incorporating these skills, it is very important to make sure proper technique is maintained (for example, leaps demonstrating height, extended legs, correct arm placement, and pointed toes. POP AND LOCK: This dance style emphasizes body isolation that implements “popping” (muscle flexes) and locking (short pauses or freezes within movement).

BREAK DANCE: This is a very athletic style of skills, combining forms and maneuvers from activities such as gymnastics*, hip hop, and martial arts. Use of cheer style tumbling sections may negatively affect your score. *See **Tumbling, Gymnastics and Tricks under Dance General Rules for details.**

KRUMPING: This is an evolving new style of dance that involves fast, expressive, and highly energetic movements.

JAZZ: This performance demonstrates various elements of jazz technique and performance skills. This routine should focus on a mixture of difficulty, creativity, and technique. Technical elements should be included in this category (see below):

Pirouettes demonstrating proper foot placement, arm placement, spotting and performed on Relevé.) **Improper execution of technique may negatively affect your score.**

THEME DANCE: The focus of this performance is audience entertainment. With no spoken word, this routine tells the story of the selected theme or era. Through the selection of music, costuming and dance the audience is drawn into your theme. This routine should encompass and express one predominate theme and/or era. Theme dance incorporates novelty movements into elegant, athletic theatre capable of captivating audiences. This performance should additionally focus on athletic skills such as jumps, combo jumps, tricks, trick variations and/or illusions. SCORE SYSTEM 411

YOUTH DANCE DIVISIONS

YCADA's scoring system leads the industry in innovation! We take scoring to the next level! We challenge teams to "perform smarter!" By understanding YCADA's scoring structure, coaches should already be able to estimate their 'base' technical element scores before even taking the floor! Use the tips provided below, Scoring Grid, General Rules, Penalty Info and the Coach's Cheat Sheet to ensure your routine maximizes its potential score.

HOW IS A ROUTINE SCORED?... *THIS IS OUR FAVORITE PART!*

YCADA has created separate scoring criteria for EVERY style of dance! What does this mean? Points are allocated differently for each routine style! Why would we go to such great lengths to tailor our score sheets to each style? 'Cause we know that each style of dance demands different skill levels. For example, a Theme Dance demands different skills and a different performance than a Pom Performance routine. Theme Dance does not call for jazz skills/technique but it does call for a routine based on theme and entertainment. Therefore the score sheets for Theme Dance have a higher point value for the Performance Presentation while Pom score sheets have a higher value point value for difficulty. YCADA not only believes in the purpose of skills/performance levels, but also carries this mission throughout the scoring process. If the routine isn't demanding a certain skill or style, then fewer points will be allocated for this versus other parts of the routine. We get it!

WHAT ARE SCORING GRIDS?

SCORING GRIDS show coaches what point ranges certain skills may achieve depending on whether skills were performed by a partial or majority of the team, at what difficulty level the majority of the skills were performed, and the perfection of execution of the skills. For example in Pom Performance, having one participant execute a single pirouette while the rest of the members perform a front kick does NOT guarantee a scoring in the range of 4 - 5 in Incorporation of Jazz Technique /Performance Skills. Other factors must be considered. When entering a category that specifically calls for mandatory skills/styles, YCADA must ensure that the difference is recognized between teams who perform a sufficient amount of the required skills/styles vs. teams that have only included a limited amount. With perfection of execution and creative incorporation, that team may be able to achieve a score in the range of 4 - 5. As you can see, YCADA takes scoring seriously and works hard to identify the slight differences in routine difficulty, execution and team incorporation that make the difference in final team ranking.

HOW ARE TOTAL SCORES CALCULATED?... *LET'S DO SOME MATH. C'MON, IT WILL BE FUN!*

Your Total Possible Score from each judge will be 100 possible points. Scores from all panel judges are added together, and then divided by the total number of panel judge to find the average score. Any penalties and deductions received are then deducted to provide the Final Score. The Final Score is used to determine awards/ranking at that specific championship and Nationals Qualification.

For example:

Total Possible Score per Judge: 100 points

The team receives the following scores:

Judge 1: 72.1

Judge 2: 75.3

Judge 3: 74.1

These scores added together $(72.1 + 75.3 + 74.1) = 221.5$

Then divided by the number of judges $(221.5 / 3) = 73.83$

Average Score: 73.83 points

The Average Score minus the penalty points $(73.83 - 2.5) = 71.33$

Final Score = 71.33 [used for awards/ranking & Nationals Qualification]

COACH'S CHEAT SHEET

YOUTH DANCE DIVISIONS

HOW DO YOU USE YCADA SCORING GRIDS?... *DON'T WORRY, WE'LL WALK YOU THROUGH IT*

1. FIND YOUR TEAM'S SCORING GRID.

What is your Category?

Example:

- If you are: POM
- Then select: YOUTH - POM SCORING GRID

2. LOOK AT EACH ELEMENT ON THE SCORING GRID.

- Your team will be judged and scored on the criteria specified in *your* category and dance style scoring grid. Each scoring grid has its own point distribution and allotment.
- Scoring elements are judged based on a level of execution, perfection & creative incorporation. Elements with a strong level of execution, perfection and creative incorporation show mastery, excellence, consistency and are performed with confidence. Elements with a weak level of execution, perfection & creative incorporation lack technique, show inconsistency, need to be polished and lack self confidence. Strong level = higher score.
- Scoring elements are judged based on majority vs. partial team execution. Teams will earn more points if the *majority* (over half of the team) executes (not attempts) the elements than teams who have partial (less than half of the team) execution.
- **Scoring Example:** An element on the YOUTH - POM SCORING GRID is CHOREOGRAPHY FORMATIONS- Variety, Spacing and Transitions
 - ▶ If the majority of the routine contains seamless and creative transitions, variety in formations, great spacing, etc.
 - Then you can expect to receive a score in the 9.0 - 10.0 range
 - ▶ If the majority of the routine contains basic formation changes with standard transitions and inconsistent spacing, etc.
 - Then you can expect to receive a score in the 7.0 - 7.9 range

WHAT ARE JUDGES LOOKING FOR?... *HERE'S A QUICK CHECKLIST*

- Were all skills performed 'legally'?
- Did the majority (over half) of the team perform/execute (not attempt) the skill(s)?
- Did the routine include variety?
- Was the routine executed with proper presentation and level of energy?
- Was it clean & exciting? Were there many timing errors?
 - Examples:**
 - Was choreography varied to hold audience attention? OR did the routine become repetitive & monotonous?
 - Did the performance have consistent energy throughout the entire routine? Or did the confidence and energy level drop half way through or towards the end?
- How did the team *execute* the skills?
 - Strong Level = Higher Score
 - Mastery of skill •Excellence of performance/skill •Confidence in performance
 - Weak Level = Lower Score
 - Inconsistent in skill •Needs polish •Lacks self confidence
- Were there mistakes, improper execution of technique/tricks/styles, timing errors, etc.?

A la Seconde Turns (Turns in Second): A turning series that opens from a plié out to the front in second position (extended directly out to the side, level with hips) on relevé, and repeats with a turn in plié and so on. Very similar to fouetté turns but instead of the leg whipping in to passé, it stays in second position.

Backward Roll: A non airborne tumbling skill where one rolls in a tucked position backward with their shoulders in contact with the performance surface and lifting the hips over head through an inverted position.

Break Dancing: A rhythmic style of dancing involving rapid acrobatic moves, jumps, and twists in which different parts of the body are in contact with the performance surface.

Shoulder Sit: The supporting dancer stands up while the elevated dancer sits on top of their shoulders with legs wrapped around the supporting dancer's back.

Side Leap/Jeté a la Seconde: A leap to the side in which one leg rises to second position, or highest point of extension, while the other leg follows by doing the same on the opposite side to meet in a straddle position in mid air before landing.

Spotting: A term used for the movement of the head and focusing of the eyes during pirouettes and other turning movements. This will prevent dizziness and help the dancer to not fall out or travel during the turn(s).

Stall: A hip hop maneuver that halts all body motion. This skill uses the dancers strength and balance to freeze in a pose that is usually creative in leg variations or done on one or both hands in the inverted position.

Street Dancing: This type of dancing includes break dancing, krumping, liquid dancing, popping, etc.

Supporting Dancer: A dancer (s) who bears the weight of the elevated dancer.

Switch Leap: A leap in which the working leg kicks forward then switches to the back as the other leg comes to the front to create the ending position of a leap before landing.

Switch Second: Facing the side, the dancer begins a leap by extending one leg forward, then rotates the hips and body to the front while switching the leg position in mid air to end with both legs extended at each side (straddle position).

Thigh Stand: The supporting dancers are in a lunge position while the elevated dancer places their feet in the pockets of the supporting dancer's thighs.
